## **FINAL REJECTION**

### ***Response to Applicant's Amendment***

#### ***Specification***

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: the limitation "said level shifter is adapted to provide an output at one of several substantially predetermined voltage levels" in claims 1 and 12 lacks antecedent basis in the specification. This limitation is considered to be a new subject matter.

#### ***Claim Rejections***

##### ***Claim Rejections - 35 USC § 112***

Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Correction o clarification is required.

In claim 1, it is unclear how the limitation "said level shifter is adapted to provide an output at one of several substantially predetermined voltage levels" is read on the preferred embodiment. Insofar as understood, no such levels are seen on the drawings. The same is true for claim 12.

The remaining claims are dependents from the above rejected claims and therefore also considered indefinite.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-12 are rejected under 35 USC102 (e) as being anticipated by Fukui (US 6,157,242).

Figure 1A of Fukui discloses a charge pump circuit comprising a first set of stages (stg1-stg4) and a later set of stages (stg5-stg8), a first clock signal (CLK2-CLK4) and a second clock signal (BSTCK1-BSTCLK3) providing by a level shifter (10).

***Response to Applicant's Arguments***

The applicant argues that Fukui does not disclose that the level shifter is adapted to provide an output at one of several substantially predefined voltage levels. The argument is not persuasive because the argument is based on the limitation which is not supported in the present specification. Thus, the rejected claims remain readable on the prior art.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
